EXPERIENCE

DIAT-Defence Institute of Advanced Technology
Cyber Security   2023 - current

Cyber Security Knowledge and expertise: With a solid background in Cyber Security, I have the knowledge and practical expertise to protect digital assets and protect against emerging threats. Among my abilities are:
Implementing and monitoring strong security procedures to safeguard sensitive data's confidentiality, integrity, and availability
Conducting vulnerability assessments and penetration testing in order to detect and address possible security threats.
Monitoring networks and systems for unusual activity and responding to security problems as soon as possible.
Keeping abreast of the most recent security developments, technology, and best practice's.

Greek for Greeks
Full stack Development - 2023

In addition to my Cyber Security expertise, I am a proficient Full Stack Developer with hands-on experience in both front-end and back-end technologies. My skills include:
- Front-end: Proficiency in HTML, CSS, JavaScript, and modern JavaScript frameworks (e.g., React, Angular, or Vue.js) to create dynamic and responsive user interfaces.
- Back-end: Strong command of server-side programming languages such as Python, Node.js, or Java, and experience with databases like MySQL, MongoDB, or PostgreSQL.
- Building RESTful APIs and microservices for seamless communication between front-end and back-end systems.
- Version control using Git and collaboration with teams using Agile methodologies.

EDUCATION

Shiv Nadar University, Delhi-Ncr
